

Leadership Ala Carte

By Al Lautenslager

From the Sopranos to Harley Davidson; from Jesus to Patton; from Lombardi to Moses, we learn leadership from those that are leaders.

Much has been written about many leaders of our time: Lincoln, FDR, Jesus, Patton, Bush, Churchill, Lombardi and more. These are the people we think of when someone mentions leadership.

Now for the first time ever in this format you can learn the leadership secrets of some of the hidden gems of leadership.

Who would have ever thought we could learn leadership lessons from

Attila the Hun or Star Trek or The Sopranos.

Now you can design your own motivational, inspirational, leadership keynote that will be delivered by Al Lautenslager. The good news is you get to design the content.

Many Leadership books have been written about many leaders. Attached on the reverse side are those most popular leaders written about. You can't read about them all; you don't have to.

Just pick the 3-5 people that you want your own customized leadership message to be built around and Al will deliver it in his most entertaining, motivating and educational fashion. Your audience will leave better leaders. Who knows?

Maybe the next leadership book will be written about someone in your own organization.
